

# SEA LIFE

## Amazing Dads of the ocean!

Did you know? That male seahorses have a pouch near the side of their tail which can hold up to 1500 eggs. The eggs stay inside the pouch for 9-16 days until the baby seahorses are fully formed

### Instructions:

1. Print out or photocopy this design onto card.
2. Students to cut out the design.
3. Students to colour and decorate.
4. Give students string or elastic they can use to thread and loop around the neck.

**Did you know?**  
A baby seahorse  
is called a sea  
foal!
